Ed,

These maps don't show the paleo objects. Is that in the mix of what has been sent here previously or can you add that one in? And as we discussed yesterday, can we have your folks pull the descriptions of these landscape features and objects and send them to me as they are compiled? One more question...is there any ESA or wildlife habitat or flora/fauna objects in the monument boundary?

Group	Yes (%)
All respondents	65
Respondents who have received information	85
Respondents who have not received information	45

When we get the mineral info we can produce a map with all four layers you requested. ed
